Walk  Angel™

WALKWAY & STEP SYSTEM

Walk Angel Benefits

Walk Angel walkways allow you to traverse roofs safely, maintaining the integrity of the roof. Designed to be as user friendly as possible, Walk Angel is easy to install and use. Each segment is constructed from sturdy GRP and PVC and features a flush fit joining system, as well as a non-slip surface: this ensures minimal trip risk in all weather conditions.

The pieces are guaranteed not to warp, split or twist, meaning you'll have a walkway you can rely on throughout each job. It's even fire retardant: so whatever the situation, Walk Angel is sure to weather it brilliantly.

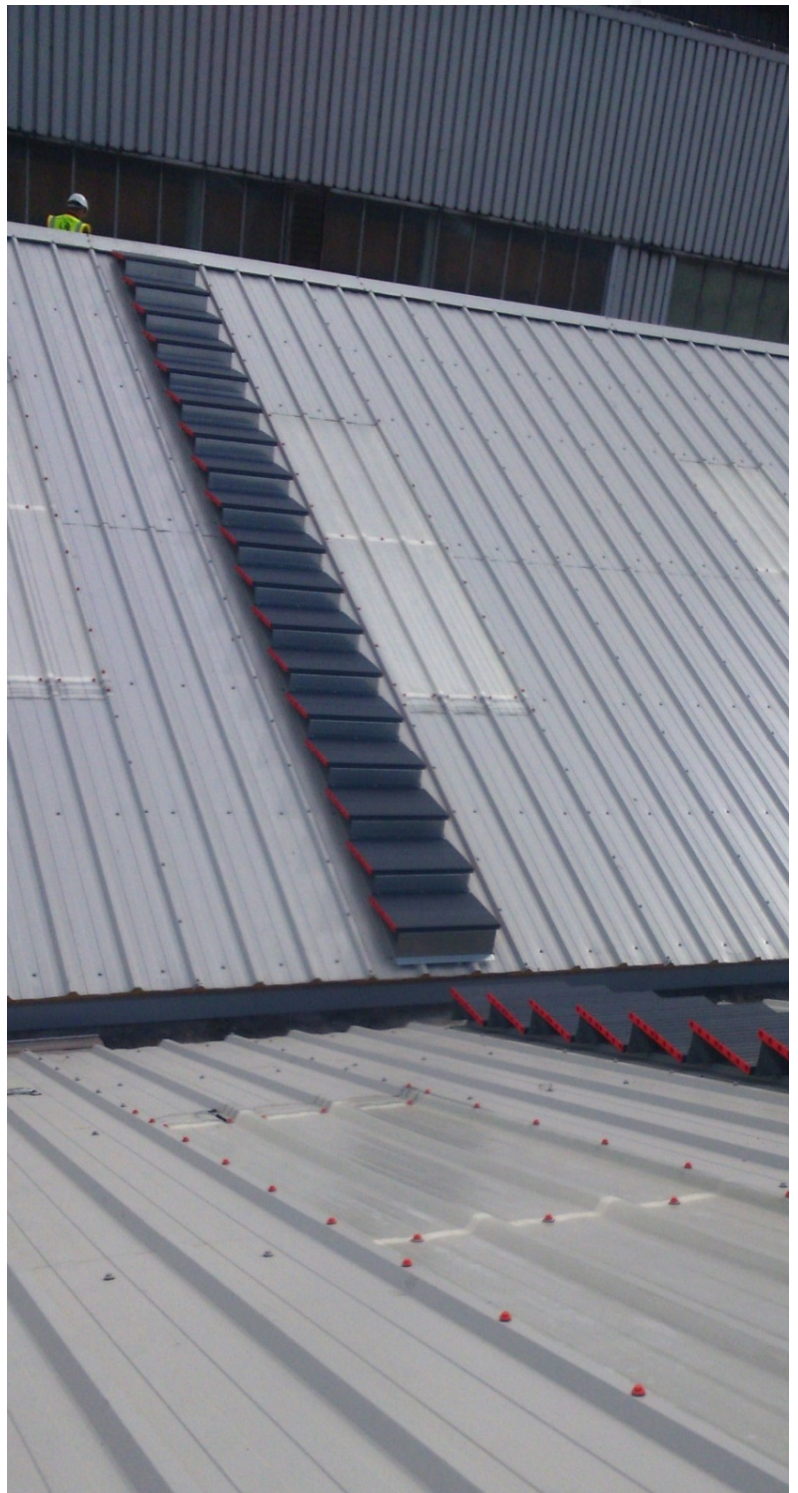

Key Benefits:

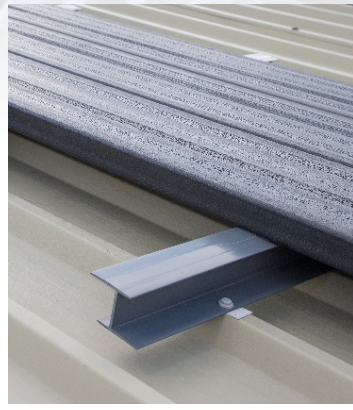

- ✓ Lightweight for reduced transport costs and quicker handling
- ✓ Slip resistant
- ✓ Fire resistant
- ✓ Boards made from 100% recycled materials
- ✓ Recyclable

A Greener Choice

As well as being robustly constructed, Walk Angel is designed with the environment in mind. Every piece is made in the UK and the boards are made from 100% recycled materials: not only does this make it easier to transport and assemble, but it minimises the product's CO₂ emissions, ensuring it is that little bit kinder to the environment.

When your Walk Angel nears the end of its working life, it can be easily recycled, giving it a new lease of life later on.

Trapezoidal Roofing

Installed using SFS IRIUS anti tamper screws with a sealant strip beneath each fixing the Walk Angel system is fast to install, delivered in 3m constructed panels.

Standing Seam Roofing

Installed using S-5! Clamps the Walk Angel system is robust, anti slip and delivered with high visibility sections to show direction change and edges.

Flat Roofing

The weighted Walk Angel system is delivered in 1.5m sections and connects together using SFS IRIUS anti tamper screws. Quick to install and low impact the system is ideal for protecting flat roofing areas.

Steps and Barrel Roofing

By producing a bespoke frame system we can manufacture the Walk Angel to any angle, even to barrel roofing systems.

Available with Guard Angel installed the steps conform to the required building regulations.

Pitched

For roofing areas over 5 degrees in pitch we offer a levelling system, bespoke manufactured to the roof angle to ensure maximum functionality.
